## IV. QUALIFICATION REQUIREMENTS

25X1

# A. KNOWLEDGES, ABILITIES, AND EXPERIENCE REQUIRED

Required experience must have comprised progressively responsible work which provided, for GS-5 and GS-7 levels, analytical ability; ability to express ideas orally and in writing; and ability to deal effectively with people.

For levels 05-9 through 05-12, experience must also have provided progressively greater knowledge of the methods, principles and practices associated with the planning, development, installation, and administration of a comprehensive records management program as found in large government agencies, or private industrial or business concerns; progressively increasing ability to recognize and define records management problems; ability to use effectively the tools, methods, techniques, procedures, and practices employed in reports, forms, and correspondence management, mail control, reference service, records maintenance, files standards, disposition of records, and vital materials operations.

The QS-12 level also requires the ability to plan and organize surveys, the ability to assume and delegate responsibility and ability to develop regulations, notices, staff studies, handbooks, and other forms of written material designed to implement records management procedures and practices.

For levels GE-13 through GE-15, experience must also have provided ability to interpret decisions, regulations, policies, and instructions in terms of their significance and impact upon the internal administration of a large organization; ability to effect adequate solutions to complex resords management problems; ability to design, install or revise records management methods, procedures and practices; ability to establish and maintain favorable working relationships with top executive personnel.

Presented of Experience: Business administration, supply administration, personnel administration, accounting, auditing, fiscal administration, other experience providing a knowledge of general business or administrative methods, procedures, and practices; reports management, forms management, correspondence management, mail control, reference service, records maintenance, files standards, disposition of records, and vital materials programs; the preparation of records management handbooks or textbooks; or administrative activities such as organization and methods examining, program analysis, library science and archival science.
